**CONFIRMATORY ASSIGNMENT OF PATENTS**

THIS CONFIRMATORY ASSIGNMENT OF PATENTS (this "Assignment"), dated effective as of July 29, 2005 (the "Effective Date"), is from **M7 NETWORKS, INC.**, a Delaware corporation ("Assignor") to **MOTRICITY, INC.**, a Delaware corporation ("Assignee").

**WITNESSETH:**

WHEREAS, immediately prior to the Effective Date, Assignor was the legal or equitable owner of all right, title and interest in the patent applications set forth in Schedule A attached hereto and incorporated herein by reference (the "Patent Applications"); and

WHEREAS, Assignor and Assignee now desire to confirm as a matter of public record the assignment of the Patent Applications to Assignee.

NOW, THEREFORE, for and in consideration of the foregoing recitals (which are part of this Assignment), and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee hereby agree as follows:

1. Assignor hereby assigns, transfers and conveys to Assignee the entire right, title and interest in and to (i) the inventions and improvements disclosed and described in said Patent Applications, (ii) the Patent Applications, (iii) any divisional, continuation, and reissue applications describing in whole or in part the said inventions and improvements, together with all the rights, powers, privileges and immunities arising or accrued therefrom, (iv) all causes of action, claims and demands and other rights for, or arising from, any infringement, including past infringements, of any of the rights granted by this Assignment, including all claims for injunctive or declaratory relief, restitution, damages (including any statutory, enhanced or punitive damages), profits, costs (including attorneys' fees) and for other monetary award, with the right to sue for and collect the same in any court of competent jurisdiction, for Assignee's sole benefit, and (v) the right to make further application(s) for patent or other similar protection for any inventions disclosed in the Patent Applications anywhere in the world together with the rights to claim priority for such application(s). Assignee hereby intends that the grant and maintenance of patent or other similar protection arising from any of the Patent Applications, or pursuant to any such further application(s), shall be in the name of and shall vest in the Assignee to hold unto the Assignee absolutely.

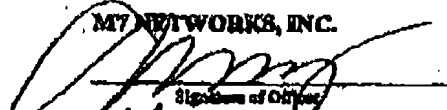

2. Assignor further agrees without further consideration to cause to be performed such other lawful acts and to be executed such further assignments and other lawful documents as Assignee may from time to time reasonably request to effect fully this Assignment and to permit Assignee to be duly recorded as the registered owner of the Patent Applications and all other rights hereby conveyed.

3. The expression "the Assignor" and "the Assignee" shall where the context so admits include their respective legal successors, representative, and assigns.

IN WITNESS WHEREOF, each of Assignor and Assignee has caused this Confirmatory Assignment to be duly executed by its authorized officer, to be effective as of the Effective Date.
